Talk 50mg.....	Catching up
Deep talk 1000mg.....	Amicitiad
Deeper talk 200mg.....	Spiritual consultation
Words of affirmation.....	Love/confidence

Uses temporarily relieves common loneliness/depression symptoms, and contingent friendship needs:

- wise words • post-episode debriefing of anxiety/depressive episodes
- encouragement to seek professional help
- consultation of aesthetic concerns (relating to art, fashion, the distant possibility of taking on a side-project, etc)
- philosophical take on current existential/faith-related concerns
- enthusiastic words of affirmation in all regards (i.e. body, face, intellect)

Warnings

Pearl's confusion: The way consumer uses language (abstraction, weird specification using accurately but strangely nuanced lingo) may result in immense confusion on Pearl's end. Avoid invoking such confusions repeatedly.

Pearl's distaste in digital communication: Pearl does not like FaceTiming, or any other forms of digital communication (text, call, hologram call) for that matter. Reassure full and engaged presence during FaceTime session. Do not rebuke Pearl for lack of texting or initiation of communication.

Difficulty in hanging up: The experience of, as well as the moment that ensues, hanging up may cause great distress to both parties. You should take agency in being the one to rip off the bandaid. Seek medical help if needed.

Drug Facts (continued)
